

# SACM

The diagram illustrates the components of SACM (Software Assurance Case Method). It features a large light orange rectangle labeled 'SACM' at the top. Inside this rectangle, there are five smaller light orange rectangles, each with a tab on its top-left corner. These rectangles are arranged in two rows: the top row contains 'Base' and 'AssuranceCase', and the bottom row contains 'Artifact', 'Argumentation', and 'Terminology'. All text is in a bold, black, sans-serif font.

**Base**

**AssuranceCase**

**Artifact**

**Argumentation**

**Terminology**
